USER GUIDE

IMPORTANT NOTICE

The GTECH Fixed/GSM small business system is not a mobile phone. As such please note the following in relation to the operation of the equipment.

1. This product has been designed to receive incoming calls on the fixed line network and make outgoing calls on a GSM network. Whilst the device can receive incoming calls on the mobile number certain functions such as SMS Alphanumeric address, Call Waiting / Hold, Call Barring, and Multi-party call is not available.
2. In accordance with Australian and International regulatory standards, the user should operate the device whilst remaining a distance of 25 cm from the main phone unit.

General Information

IMPORTANT INFORMATION ON SAFE AND EFFICIENT OPERATION, READ THIS INFORMATION BEFORE USING YOUR PHONE.

Safety

Exposure to Radio Frequency (RF) Energy

Your phone contains a transmitter and a receiver. When it is ON, it receives and transmits RF energy. When you communicate with your phone, the system handling your call controls the power level at which your phone transmits.

RF Energy Interference/Compatibility

Nearly every electronic device is susceptible to RF energy interference from external sources if inadequately shielded, designed, or otherwise configured for RF energy compatibility. In some instances your phone may cause interference.

Medical Devices

- Radio signals transmitted from the unit may cause interference to hearing aids.
- It is recommended that if you have a pacemaker fitted you check with a medical expert before using this product.

Other

- Radio signals transmitted from the unit may cause interference to electrical equipment, such as TV's, Microwave, Computers etc. It is recommended that the unit be placed at least one meter away from such appliances.

Cleaning

- Make sure the unit is off and the charger is not plugged in before cleaning the unit.
- Use a damp cloth or anti-static wipe to clean. Never use household polish as this may damage the product.

General Information

Environmental

- Only use the power supply suitable for the GTECH range. Using an unauthorized power supply will invalidate your warranty and may damage the telephone.
- Do not expose unit to direct sunlight.
- Do not expose the unit to fire, explosive or other hazardous conditions.

Declaration of Conformity

We declare under our sole responsibility that the product detailed in this manual, and in combination with our accessories, conform to the essential requirements of the European Union Directive 1999/5/EC Radio and Telecommunications Terminal Equipment Directive 3.1(a), 3.1(b) and 3.2., the Radio Communications Standard (Electro-magnetic Radiation Human Exposure) 2003, and the Australian Communications and Media Authority Section 376 of the Telecommunications Act 1997.
